On 21st April 2015 Floortex celebrated being named as winners of The Queen's Award for Enterprise - the UK's highest accolade for business success.

We received our Award for International Trade as a result of outstanding overseas sales growth over the last three years.

Floortex has taken the chair mat concept and built a global market leading position.

From our facilities in the UK, Germany and the USA we export to over 40 other countries worldwide including Canada, Australia, Russia, Japan, Mexico, New Zealand and throughout the Middle East.

THE QUEEN'S AWARDS
FOR ENTERPRISE:
INTERNATIONAL TRADE
2015

"As a UK Company, being selected for The Queen's Award for Enterprise is one of the greatest honours achievable. We are all so proud and excited to gain this recognition and it is a testament to the huge effort put in by the whole team since we started in 2002.

An award of this stature will only spur us on even more to further consolidate our global position."

Steve Bull
C.E.O & Founder

Floortex Achieves Royal Approval

Steve commented "It was a great honour to be a winner of such a renowned award and to be invited to this prestigious reception. Meeting the Queen and other members of the Royal Family was a great end to the whole awards process and a day we will never forget".

With 3.2 million companies registered in the UK there were just 141 winners of the Queens Award in 2015 with only 20% of those entering being successful.

On July 14th, Steve Bull (Owner & CEO of Floortex) together with James Bull (Financial Director) attended Her Majesty The Queen's Reception at Buckingham Palace.

The reception was an opportunity for all 2015 award winners to meet and be formally congratulated by members of the Royal Family.

The reception was hosted by HM The Queen Elizabeth II and HRH Prince Philip, Duke of Edinburgh and also attended by The Duke of York, accompanied by Princess Eugenie of York, The Princess Royal, The Duke of Gloucester, The Duke of Kent, Princess Michael of Kent and Princess Alexandra, the Hon Lady Ogilvy.

A National Award with a local feel

Floortex were formally presented with their Queens Award by the Lord-Lieutenant of the County, Dame Janet Trotter at an awards ceremony at the Company's Tewkesbury HQ on June 17th.

Protection you can trust

At Floortex we believe different is not always better, but better is always different.

THE FLOORTEx PRODUCT RANGES

At home or in the office, Floortex offer a comprehensive and unrivalled range of surface protection products for floors, desks and other work surfaces.

Chair Mats

Our Original Floortex Polycarbonate range has become the benchmark for high performance chair mats providing the ultimate in ergonomic performance and durability. The development of our unique Phthalate Free PVC formulations has resulted in the top performing mats in the category.

The addition of anti-static and anti-microbial ranges demonstrates our continual innovation and desire to offer consumers excellent new solutions.

With the Ecotex ranges offering high performance environmentally aware options and Colortex providing a splash of colour and style, Floortex offer a great solution for all office or home users.

Desk & Surface Protection

A unique collection of surface protection mats produced from our extensive range of materials from phthalate free PVC through to anti-slip Original Floortex Polycarbonate and 100% post-consumer recycled PET, Floortex have a solution to suit all needs. A comprehensive anti-microbial range provides a great addition to all homes & offices.

Entrance Mats

A highly effective range of indoor & outdoor entrance mats designed to form an effective barrier to dirt & moisture from entering your home or office. From bright and attractive home focused printed mats through to heavy duty rubber matting we have a solution to suit all tastes and environments.

Commercial Matting

Use of anti-fatigue matting is a great way to reduce the strain on the legs and back when standing for prolonged periods. Ideal for use in production facilities, reception areas or to reduce strain at your stand-up desk. Our ranges include ramped edge, open top and a modular system that allows coverage of larger work areas.

HARD FLOORS

CARPETS

ANTI - SLIP

CHOOSING THE RIGHT MAT

Floortex mats are versatile and allow flooring surfaces to shine through. In order to maximise the lifespan of your mat, whatever you use it for, match it to the surface it protects. Use this simple guide to ensure your mat provides years of use and continues to maintain the pristine appearance of your flooring.

1 CHECK YOUR SURFACE

CARPETS

Spiked gripper backing will keep the mat in place without damaging the carpet. You will need to make sure that your mat is thick enough for the pile of your carpet.

To determine the pile of your carpet, take a straightened paper clip and sink it into the carpet, through the backing until it reaches the floor.

Grab the paper clip with your thumb and index finger at the point where it is flush with the carpet. Measure the distance between your fingers and end of the paper clip to work out the carpet's thickness.

HARD FLOORS

Our standard smooth backed mats will protect your hard floors whether they are wooden, laminate, tiles or concrete.

Our Anti-Slip mats feature a very low tack coating which is perfect for polished surfaces and will also leave no marks.

4 CHOOSE THE SIZE OF YOUR MAT

MAKE SURE YOU THINK ABOUT:

- Total floor space
- Width of your workstation
- Size of your chair base
- Your "roll area" - look at the furthest points you need to retrieve items.

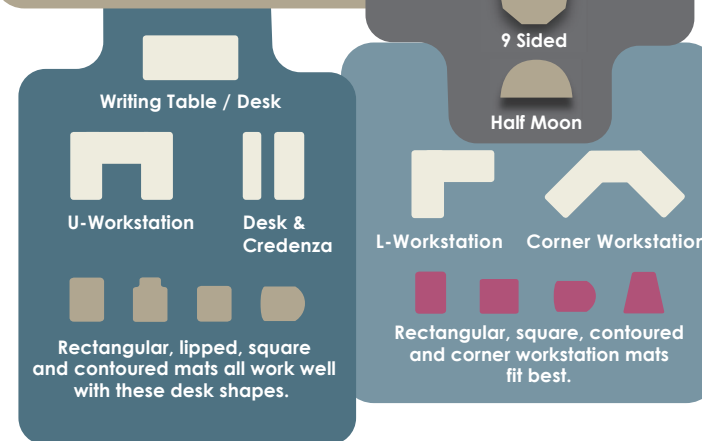

2 CHOOSE THE RIGHT SHAPE

FIND THE SHAPE OF YOUR WORKPLACE AND MATCH IT TO THE RIGHT STYLE

There is a wide range of shapes to suit any space, from the basic to the aesthetic.

Before you choose your shape consider your chair's roll area. Do you sit still or move from a desk to a file?

Determine the furthest points you roll to retrieve items - and then pick a size & shape that will cover these dimensions.

3 CHOOSE A MATERIAL

ORIGINAL FLOORTX POLYCARBONATE

The ultimate in quality, clarity & durability for floor protection in the home & office. Being high clarity and 100% recyclable this material makes the toughest & most durable mats available. Does not curl, crack, dimple, discolour or smell.

Look for our **Ultimat** range.

FLOORTX PVC RANGE

All of our PVC products are Ortho-Phthalate free, meaning that our mats are free from the plasticizers that have been banned from children's toys & medical instruments. For Standard PVC mats look for our **Advantagemat** range.

We also offer the Advantagemat in an Anti-Microbial formulation tested in accordance with the ISO22196 standard. For anti-static mats that help protect electronic instruments such as computers from dust, look for our **Computex** range.

FLOORTX ECOTEX RANGES

The **Revolutionmat** range of smooth back and anti-slip hard floor mats are made from 100% post-consumer recycled PET.

The **Evolutionmat** range is available in both Hard Floor and Carpet application formats. Enhanced Polymer with up to 50% recycled content.

Durable and dependable materials provide a green footprint for your floors. Look out for our **Ecotex** products.

FLOORTX MATS ARE MADE FOR THESE SURFACES:

Low Pile Carpet
less than 6mm (1/4")
thick

Standard Pile Carpet
less than 9mm (3/4")
thick

Medium Pile Carpet
